## MP3Go v1.02

- MP3 Music Player for Nokia 9200 series Communicator

### *Quick Start Guide*

empowering@mobile.internet

m-internet.com Ltd.  
<http://m-internet.com>

35/F Central Plaza, 18 Harbour Road, Wan Chai, Hong Kong  
Tel +852 2593 1328 Fax +852 2891 5888

### 1. Feature Highlights:

- a) Support MPEG-1 layer 3 file in 64k/128k/256k/320k bit rate
- b) Support playlist .m3u compatible with NullSoft WinAmp (import/export). Microsoft Media Player format (import only)
- c) Pause and resume songs when incoming voice calls or making external voice calls
- d) Changeable *Skin* background in Skin mode

### 2. Minimum Requirements

- Nokia 9200 series Communicator with MMC installed, at least 700k free main memory
- A PC desktop with Nokia 9200 series Communicator PC Suite installed
- Connection cable/IR between your PC and the Nokia 9200 series Communicator
- MP3 songs should be copied to the MMC (recommended)

### 3. Installation

- a) Make sure you connect the Nokia Communicator to the PC using connection cable
- b) Run the file **MP3Go102.SIS** and it will be automatically installed to your Nokia Communicator

Tel +852 2593 1328 Fax +852 2891 5888

If the default installation language of your Nokia Communicator is not listed above, the above screen will be shown and you can choose which **MP3Go** language version is best for you. Select from the language of the software you would install and press “**Next**” button to continue.

You can choose to install **MP3Go** in the main memory or the MMC storage card (recommended)

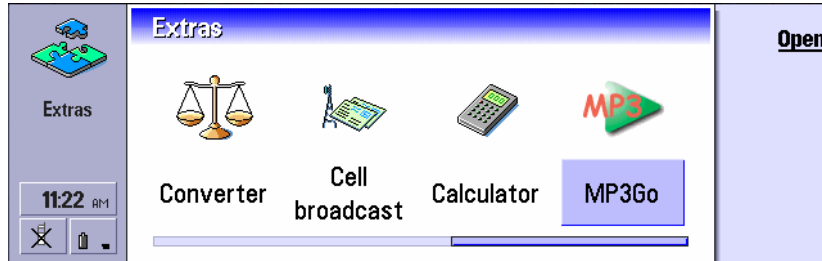

- c) Press the **Extra** button and run the **MP3Go** program
- d) If it is the first time to run the **MP3Go**, registration code is required.

**Note:**

Your registration code is generated based on the IMEI (a unique serial number on the GSM phone) of your Nokia 9200 series Communicator. You have to supply the IMEI to m-internet.com Ltd. to generate the registration code only for your device. Pressing **\*#06#** on your phone keypad to get the IMEI and send email to [support@m-internet.com](mailto:support@m-internet.com) for assistance. Make sure you can only install one copy in one device only for each license use!

35/F Central Plaza, 18 Harbour Road, Wan Chai, Hong Kong  
Tel +852 2593 1328 Fax +852 2891 5888

You can “Pause” or “Stop” using the right button anytime

- c) Press “Ctrl-E” or “Close” in right-hand sided button to quit the program

During playing songs, the following keys can be used

Up Cursor – Increase volume

Down Cursor – Decrease volume

Left Cursor –Previous track

Right Cursor – Next track

35/F Central Plaza, 18 Harbour Road, Wan Chai, Hong Kong  
Tel +852 2593 1328 Fax +852 2891 5888

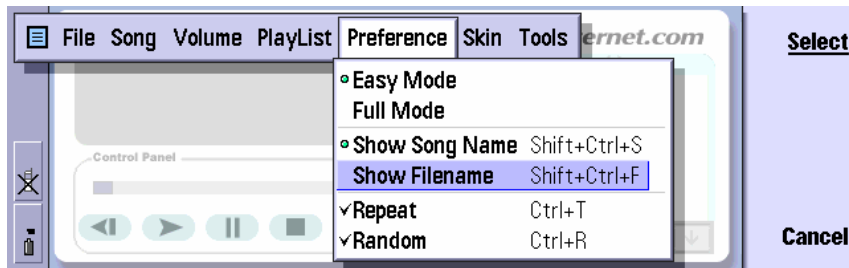

You can press the shortcut keys from **1-0**, **Q-P** which plays songs no. 1 to 10 (button 1 to 0), and 11 to 20 (button Q to P) correspondingly.

If your song panel does not show the song name correctly because the ID3Tag is missing, please try:

- i. Press the “**Menu**” button
- ii. Select “**Preference**”, choose “**Show Filename**” (default is “**Show Song Name**”)

You can use the following speaker to play songs in

- Handfree
- Headset
- Mobile phone Voice speaker

**Important Notice:**

Make sure all your MP3 song files are strictly legal and obtained from a legal source. Playing unauthorized MP3 songs is illegal and infringe of the ownership of the respective song owner.

5. Enable the Skin mode

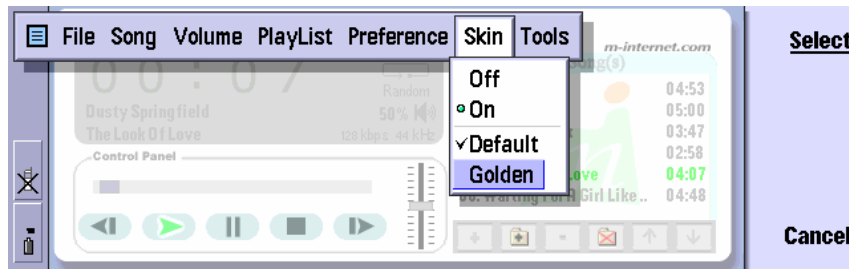

**MP3Go** includes one default skin. To enable the default skin, select **“On”** in **“Skin”** menu.

Note that when you enable **“Skin”** mode, **MP3Go** takes maximum about 1.3M main memory compared to 700k in Simple Skin mode.

6. To install the extra skin **Golden** for **MP3Go** (Optional)

- Make sure you connect the Nokia Communicator to the PC using connection cable
- Run the file **MP3Go102SkinGolden.SIS** and the skin files will be automatically installed to your Nokia Communicator
- Restart **MP3Go**. Press **“Menu”** key and choose **Skin** menu and select **“On”/“Golden”** to enable skin

- Now you can run **MP3Go** using the skin named **“Golden”**
